**Předmět:** record in your CityGuide

Dear Sirs,

I have got an invoice 00645794057 for the record about our company in your CityGuide. I am very sorry for the mistake but I thought the record will be free of charge. Due to my wrong English I did not understand correctly the content of the signed document. Please delete our record and accept my appologize.

At the same time I would like to call your attention to a faulty text concerning Prague. Prague is not a golden city on the Danube but on the Vltava river (Moldau in German). The capital city of Slovak Republic Bratislava and Austrian capital Vienna are situated on the Danube. Please correct the error.

Best regards  
Petr Golan
