Předmět: record in your CityGuide

Dear Mr. Walker,

in answer to your letter dated August 5th 2003 under the reference-number 68126 I regret to have to tell you that I did fill in your form in the erroneous assumption that you are collecting addresses of European firms for your catalogue (that will be selling to your customers) and that I am only giving you my permission (by my signature) to publish information about our company. According to our law a document signed by misunderstanding is invalid.

As far as your City Guide is concerned we are not interested to buy it because it would be of no business contribution for us. In my last e-mail I gave a notice there are mistakes in it (Prague does not lie on the Danube, your map of the Czech Republic has an incorrect shape). Enclosed you will find the correct shape of the Czech Republic. (Pay attention, please, the image is copyrighted, you will need a permission for using it.)

Another drawback of your catalogue is that it is not possible to search companies according to Czech towns. Therefore, only a sequential access is possible that is very uncomfortable. Please take these friendly notices and proposals for improvement as a compensation of your work associated with creating and deleting VUMS Computers file.

Sincerely
 Petr Golan
